Keynotes

Make it possible, they say

Dominique BURGER, Pierre Guillou, Association BrailleNet, France

Accessible Technology: New Directions, New Possibilities

Debra Ruh, TecAccess, USA

Web Accessibility – It's not Magic, it's Art

Shadi Abou-Zahra, W3C Web Accessibility Initiative, Austria

Opening Web-Based Learning to a Larger Student Community

Kinshuk, Athabasca University, Canada

Sabine Graf, Vienna University of Technology, Austria

Topic : Accessibility

BrlAPI: Simple, Portable, Concurrent, Application-level Control of Braille Terminals

Samuel Thibault, LaBri, Sebastien Hinderer, LORIA, France

Talking About People, not Technology: Web Accessibility

Natasha Boskic, Kirsten Bole, The University of British Columbia, Canada

An Accessible Interface for a Mobile Phone-based Travel Information System

Nick Tyler, Marcela Wainstein, University College London, United Kingdom

Towards Web-Based automatic interpretation of written text to Sign Language

Mohamed Jemni, Oussama Elghoul, Research Unit UTIC, Tunisia

Increasing the Robustness of Man-Machine Interfaces

Fevzi Belli, Faculty of CSEEM, Germany

Graphical Tool to Simplify the Navigation and Web Accessibility

Chabane Khentout, Mahieddine Djoudi, Lamri Doudi

University of Sétif, Algeria/ University of Poitiers, France

Accessibility to Mathematical Documents

Afef Kacem, Research unit UTIC, Tunisia

AccèsSimple Web site: From innovation to evaluation

Sonia Rioux, Jacques Langevin, Université de Montréal, Canada

Web Accessibility Education: an European Challenge

Roberto Scano, Roberto Castaldo, IWA Italy – Italian Chapter IWA/HWG, Italy

UNESCO IITE Contribution to e-Inclusion Policy Development for Education

of Students with Disabilities

Boris Kotsik, Natalia Tokareva, UNESCO IITE, Russia

An Arabic Optical Braille Recognition System

AbdulMalik Al-Salman, Yosef AlOhali, Mohammed AlKanhil, and Abdullah AlRajih

King Saud University and KACST, Saudi Arabia

User & service modeling in assistive environment to enhance accessibility of dependent people
 Mahmoud Ghorbel, Rachid Kadouche, Mounir Mokhtari, Institut National des
 Télécommunications d'Evry, France

Automatic Hybrid Approach for Lip POI Localization: Application for Lip-reading System
 Saleh Werda, Walid Mahdi, Abdelmajid Ben Hamadou, MIRACL Lab, FSEGS, Tunisia

@Science - Towards an Accessible Science

Barbara Hengstberger, University of Linz, Institute Integriert Studieren, Austria
 Cristian Bernareggi, Università degli Studi di Milano, Italy

The role of persons with disabilities in building the information society in the Arab world
 Imed Eddine Chaker, National union of the blind in Tunisia

Topic: Accessible E-learning

BeLearning: Using Mental Models to Design Accessible eLearning Applications
 Sabina Jeschke, Helmut Vieritz, Berlin Univ. of Technology, Germany

E-Learning Contents for People with Disabilities: a Standardized Design Approach
 F. Colace, M. De Santo, P. Rocca, DIIIIE-Università degli Studi di Salerno, Italy

Teaching and Learning with Information and Communication Technologies for Intellectually
 Disabled Students: A Critical Review of the Empirical Literature
 Hajer Chalghoumi, Jacques Viens, Faculty of Education, Université de Montréal, Canada

Exploring Usability and Accessibility of an E-Learning System for Improving Computer
 Literacy

Matjaž Debevc, Petra Povalej, Mateja Verlič, Zoran Stjepanovič
 Faculty of EECS, Faculty of Mechanical Engineering, Slovenia

An Environment for Deaf Accessibility to Educational Content
 Eleni Efthimiou, Stavroula-Evita Fotinea, ILSP, Greece

A model driven framework to provide e-learning for students with disabilities
 Amina Bouraoui, Mohamed Jemni, Mohsen Laabidi, Research Unit UTIC, Tunisia

Authoring Intelligent Tutoring Systems for Disabled Learners
 Said Talhi, Salima Ouadfel, Samir Zidat, University of Batna, Algeria
 Mahieddine Djoudi, University of Poitiers, France

Multimedia Distance Learning Environment
 Khadidja Harbouche, Engineering science faculty Laboratoire SIC Algeria
 Mahieddine Djoudi, University of Poitiers, France

Topic: ICT & Education

Towards a model for evaluating the E-learner's behavior
 Benaceur Outtaj, Rachida Ajhoun, Younes Bouzekri Idrissi, ENSIAS, Morocco
 Mohamed Sidir, Université d'Amiens, France

Geocaching at the Institute of Paasikivi – New ways to teach GPS Technology & Basics of
 Orientation In Local Geography
 Pirita Ihamäki, University of Turku, Finland

Views Of The Teaching Staff On Web Based mathematics Teaching Prepared On High School-1
 Functions

Ebru GÜVELİ, Rize University, Turkey

Learning Objects for Programming

Ion MIERLUS MAZILU, Alina Maria VADUVA

Technical University of Civil Engineering, Romania

A Process for the Generation of Personalized Learning Scenarios based on Ontologies

Fathi Essalmi, Leila Jemni ben ayed, Research Unit UTIC, Tunisia

A Source of Inspiration: ATC for Visually Impaired Students at the Islamic University of Gaza

Hatem A. Elaydi, Hazem Shehada, Islamic University of Gaza, Palestine

Personalization of a group learning situation

ABIK Mounia, AJHOUN Rachida, ENSIAS, Morocco

Learning applications based on Multi-layer perception system for automatic tagging

Mohsen Maraoui, Georges Antoniadis, Mounir Zrigu

LIDILEM Laboratory, Stendhal University, Grenoble, France

RIADI Laboratory (Monastir unit), Faculty of Science, Tunisia

Technology assisted improvement of learning objects quality

Ramzi Farhat, Mohamed Jemni, Research unit UTIC, Tunisia

Bruno Defude, INT d'Evry, France

Topic: Innovation and advanced research in ICT

Performance Evaluation of the distributed Arabic cursive characters recognition using the DTW algorithm on the SRTG.

Mohamed Labidi, Maher KHEMAKHEM, FSEGS, Tunisia

EMASPEL (Emotional Multi-Agents System for Peer to peer E-Learning)

Mohamed BEN AMMAR, ISIG, University of Kairouan

Mahmoud NEJI, FSEGS, University of Sfax, Tunisia

LR-Upward Drawing: a More Usable Ordered Sets Drawing

Guy-Vincent Jourdan, Livaniaina Rakotomalala, Nejib Zaguia

SITE, University of Ottawa, Canada

Multiple Ant Colonies Optimization for Load Balancing in Distributed Systems

Al Dahoud Ali, Mohamed A. Belal

Al-Zaytoonah University, Jordan

Proposal of Personalized Multi-modal Information Diffusion System

Makram Soui, Khaled Ghédira, ISG Tunis, Tunisia /

Slim Hammadi, Ecole Centrale de Lille, France

A Modified Method for Generating a Secure Accessibility Pseudorandom Bit Sequences

Abdulameer K. Hussain, Zarqa Private University, Jordan

Serialisation based approach for processes strong mobility

Soumaya Marzouk, Maher Ben Jemaa, Mohamed Jmaiel, ENIS, Sfax, Tunisia

Mobile Internet Congestion Control

Ilhem Lengliz, Abir Ben Ali, Farouk Kamoun, CRISTAL - ENSI, Tunisia

Bluetooth scatternet formation of wireless devices based on maximal independent sets

Yassine Daadaa, Ivan Stojmenovic, Nejib Zaguia, University of Ottawa, Canada

Transactions Security and Payments via E-Commerce in Tunisia
Abderrazek BEN SALAH , E-MASIG, El Manar University, Tunisia

Service plane-aided Visualisation of virtual topology in transport networks
Valerio Martini, Fabio Baroncelli
Barbara Martini, Piero Castoldi, Michele Guglielmucci, Aymen Garbouj, SSSA,Pisa, Italy
Siddharth Mishra, India

Extension of the Wahl-Rothermel temporal model for the multimedia documents
Maredj Azzeddine, Alimazighi Zaia, Sadallah Madjid, Univ. H. Boumediene, Algeria

A Framework Integrating Signal / Semantic Visual Characterizations
for Conceptual Video Retrieval
Mbarek Charhed, Mounir Zrigui, FSM, Tunisia

Lossless and Lossy Compression in 4D Bio-modeling
Martin zagar, Mario Kovac, I Vana Bosnic, FECC , Croatia

Model Driven Approach For the Design and the Development of Non Visual Components
Amina Bouraoui, Mejdou Soufi, Research unit UTIC, Tunisia

Using ontologies to resolve semantic conflicts in information systems design
Mohamed MHIRI, Faïez GARGOURI, ISIM Sfax Institute, Tunisia

Posters

Virtual teamwork challenge for future
E. Kasparova, University of Economics, Prague, Czech Republic

Aging effect investigation on prehension movement with obstacle
for accessibility applications
Marie Geronimi & Philippe Gorce, Univ. du Sud Toulon-Var, France.

A Morphological Analyser for Arabic Language.
Mourad MARS, Georges ANTONIADIS, University of Stendhal, France
Mounir Zrigui, University of Monastir, Tunisia

How to Write an A+ Paper
Amer N. Abu-Ali , Hafidh .Z. Jamil, Philadelphia University, Jordan

Future of Learninge-Learning
Walid Shaban & Vijayakumar.S, Middle East College of IT, Oman
